## Sine Ruve, Cosing Rue o Ares of $\Delta$

(1)

The diagram shows a circle with centre $O$ and chord $J K$

Diagram not drawn to scale.
The circle has a radius of 4.6 cm and $J \widehat{O} K=100^{\circ}$.
Calculate the area of the shaded region.

In triangle $A B C, B \widehat{A C}=135^{\circ}$ measured correct to the nearest degree. $A C=4.9 \mathrm{~cm}$ and $A B=3.8 \mathrm{~cm}$ both measured correct to the nearest mm
Find correct to three significant figures, the greatest possible area of the triangle $A B C$

3 The diagram shows two triangles $A B C$ and $A C D$ with the common side $A C$.

Diagram not drawn to scale.

The triangles $A B C$ and $A C D$ are such that $B C=32 \mathrm{~cm}, A D=19 \mathrm{~cm}, C D=28 \mathrm{~cm}, \overrightarrow{B A C}=74^{\circ}$ and $\widehat{A D C}=67^{\circ}$.
Find the size of $\widehat{A B C}$.

$\qquad$

$\therefore$ $\qquad$

(4) The diagram shows triangle $P Q R$.

Diagram not drawn to scale.
The triangle $P Q R$ is such that $Q R=7.6 \mathrm{~cm}, P R=12.3 \mathrm{~cm}$ and $P Q=8.2 \mathrm{~cm}$. (a) Find the size of $P \widehat{Q} R$.
$\qquad$

[3]

## (b) Find the area of triangle $P Q R$.

$\qquad$

$\qquad$
$\qquad$

5

## The diagram shows triangle $G H K$.

Diagram not drawn to scale.
Given that $G H=6.7 \mathrm{~cm}, G K=5.6 \mathrm{~cm}$ and $G \widehat{K H}=48^{\circ}$, calculate the area of the triangle $G H K$.
